

Birthday Party Invitation

You are invited to join

.....

celebrate his birthday party on

Date:.....

Venue.....

.....

RSVP.....

This paper is made from 25% UK zoo rhino dung and 75% post-consumer recycled paper. The paper itself is treated using non-chlorine methods to remove all bacteria, and is manufactured in Hemel Hempstead, using the heritage steam-driven 'Fourdrinier' machine at Frogmore Mill: the world's first mechanised paper-making machine dating back to 1895, and still in use today.
